

In relation to Covid-19, there is a limited international-flight-connection throughout the world airline network.

Mauritius Post (MPL) is in contact with major International Airlines and Postal Operators to comprehensively explore alternate routes and transit facilities for dispatching and receiving such foreign postal items.

As such **delay may be caused** in exchange of international mails to and from some countries.

Mauritius Post wishes to inform its valued customers that **foreign letters, parcels, EMS and MPX are being accepted** while MPL is delivering such items as they arrive in the country. Marine routes are being considered to and from Rodrigues and other destinations until flights are restored.

Mauritius Post is doing its best for the continuation of the international postal services. However, inconvenience is regretted due to International Air Flights disruption during this pandemic period.
